Upwork ↗

Hi! I’m Artem Shevliakov,
a Product Designer with 6+ years of experience.

Work History

Product Designer

Upwork • From Sep 2023

Worked independently with international clients on SaaS, B2B, web, and mobile products, covering the full design process from UX structure and prototyping to polished UI, design systems, and developer handoff. Delivered 4,800+ hours of client work, maintaining Top Rated Plus status and a 100% Job Success Score.

Product & UX/UI Designer

Bozhenko Design Club • Apr 2021 – Sep 2026

Successfully contributed to 85+ projects of varying scope and complexity. Worked on end-to-end digital product design, from early concepts and UX structure to high-fidelity interfaces and developer handoff. Translated requirements into clear user flows, responsive experiences, and scalable UI patterns, including UI kits and design systems.

Web Designer

Dimarvel • Feb 2020 – Mar 2021

Designed commercial websites and e-commerce experiences with responsive UI. Worked on logos, banners, and digital assets, building a foundation in visual design and usability.

Core Competencies

Skills

Product Discovery • Product Strategy • User Research • Information Architecture
User Flows • Interaction Design • Prototyping • Usability Testing • AI-Assted Design
UI Design • Design Systems • Responsive Design • Accessibility • Brand Identity

Product Areas

SaaS • B2B • B2C • AI • E-commerce • Monetization • Web Apps • Mobile Apps

Education

University of Radio Electronics

Bachelor of IT • Sep 2019 – June 2023 • Kharkiv

Bachelor’s degree in Software Engineering, providing a strong technical foundation in software development, system architecture, and web technologies – helping me design feasible, scalable products and collaborate effectively with developers.
